| 0 | 0 | 1 |

## ISSUES

### LOW

SWC-103

**A floating pragma is set.**

The current pragma Solidity directive is ""&gt;=0.7.5"". It is recommended to specify a fixed compiler version to ensure that the bytecode produced does not vary between builds. This is especially important if you rely on bytecode-level verification of the code.

Source file

/contracts/factory.sol

Locations

```
1   pragma solidity >=0.7.5;
2
3   import "./interfaces/IFactory.sol";
```
